

The Wall

55 years ago Israel won the first war against Arabs, Palestine (The Holy Land) was divided into three parts. The first became the state of Israel, the second (The West Bank) became a part of Jordan, The third part (Gaza Strip) was ruled by Egyptians. a wall was built to divide Jerusalem into two parts, Jewish and Arab parts .

36 Years ago, Israel won the second war, occupied the rest of Palestine, and soon demolished that wall in Jerusalem, and declared Jerusalem as one united city in spite that the whole world , through United Nation decisions refused this action, and considered East Jerusalem as an occupied area.

Israel is now building not only a wall, but walls to divide the Holy Land into several parts, so as to make the life of Palestinians more difficult. They believe that this wall will protect Israel and secure its people, I do not think so. Parts of these walls will be in Jerusalem , so Jerusalem will be divided again despite all the Israeli celebrations in the day of “ United Jerusalem “.

The Wall is really ugly. Germans had such an unpleasant wall in Berlin, they were more than happy to demolish it . But Israel is still building Walls , in the time were borders are no more exist in most of the European countries. This means that all the Israeli technology is used now to made us live in the Middle Ages.

The big and real wall is not that of cement blocks, but it is a psychological wall, between the different minds of Arabs and Israelis. Hate is nested in their minds . Its semi- impossible to break this wall, but if we can do it, may be by a miracle, then there will be hope to see peace in the Middle East and in the Holy Land.
